

Fact Sheet

Abbott China

Abbott has been operating in China for nearly 20 years and provides Chinese consumers with a diverse range of nutrition, pharmaceutical and medical products. Opening in 2009, Abbott invested approximately US\$20 million in a new nutritional manufacturing facility in Guangzhou. Abbott has more than 1,500 employees in China.

Primary Businesses

- **Nutrition Products** – Abbott offers a variety of nutrition products for infants, children, active adults and patients with special dietary needs. Key products include Similac[®], Gain Plus Advance[®], Gain School Advance[®], Premilac[®], PediaSure[®], Isomil[®], Ensure[®], Glucerna[®] and Jevity[®].
- **Pharmaceuticals** – Core therapeutic areas include immunology, infectious diseases, hypertension and anesthesia. Key products include the anti-inflammatory biologic HUMIRA[®], the antibiotic Klacid[®], Kaletra[®] an HIV protease inhibitor, anti-hypertension drug Isoptin[®] and Sevorane[™] anesthetic.
- **Medical Products** – Key lines of business include vascular, laboratory and molecular diagnostics, and diabetes care. Key products include the MULTI-LINK VISION[®] coronary stent system, laboratory diagnostic instruments ARCHITECT[®] and AxSYM[®], and the personalized blood glucose meters FreeStyle[®] and Optium Xceed[™].

Key Facilities

Abbott Manufacturing Shanghai – Opened in 2006, this pharmaceutical manufacturing facility is a joint venture between Abbott and Mei You Pharmaceutical, exclusively serving the Chinese market.

Abbott Manufacturing Guangzhou – Abbott's new manufacturing facility in Guangzhou, China, will serve as a packaging and dry blending facility for Premilac Gold, an infant formula product range that serves the Chinese market exclusively. It is the only manufacturing facility operated by Abbott Nutrition that serves just one market.

Citizenship

Global citizenship is an integral part of Abbott's mission to improve people's lives in China and around the world. Responsible citizenship is critical to Abbott's long-term competitiveness, and is reflected in how it conducts business as a global company, protects the environment and builds healthier communities.

- Abbott received the Shanghai Charity Foundation Appreciation Award in 2008 for earthquake relief efforts, including providing US\$1 million in funding and product donations to help with emergency response and recovery efforts.

- In partnership with Project HOPE, Abbott created the Institute for Nutrition Science at the Shanghai Children's Medical Center to strengthen pediatric nutrition through health care staff training, clinical research, school-based education and community outreach.
- Abbott developed and implemented the Steps to Health program in collaboration with the Chinese Government and others to strengthen health care delivery in rural areas through health care staff training and community health education outreach. Training sessions have reached 2,800 health care providers across nine provinces, and community education has reached more than 130,000 people.
- Since 2006, Abbott has distributed more than US\$790,000 in nutritional and pharmaceutical products in China to expand access to health care, and improve maternal and child health.
- In addition, since 2004, Abbott has donated high-quality infant formula to orphaned children at Jiaozuo Welfare Home in Henan Province of China. To date, more than 250 children have benefited from the formula program and the mortality rate has dropped since donations began.
